

Workstation Requirements for PC and Mac Users for Mechanics Bank Investment Management and Trust Portfolio Online

In order to run Portfolio Online effectively, adherence to the following minimum workstation characteristics is recommended. In order to view the graphics within the site you will need to have the Adobe SVG graphics viewer installed which can be obtained at <http://www.adobe.com/svg/viewer/install/>.

Mac users should refer to the **MAC User Guidelines for Settings for Mechanics Bank Investment Management and Trust Portfolio Online and Installation of Adobe SVG Viewer** reference guide.

Performance issues may arise if workstations fall below these minimum recommendations:

- 256 MB RAM minimum.
- Control Panel Display Settings to 1024 x 768 pixels.
- Windows Explorer File Types must have XLS set to open in a new window (Tools, Folder Options, File Types).
- Internet Explorer 5.5 (or newer).
- Browser cache option set to "Every time".
- Browser Cookie options set on.
- Adobe[®] Acrobat[®] 6.0 (or newer).
- Adobe SVG graphics viewer (<http://www.adobe.com/svg/viewer/install/>). Mac users refer to the separate instructions for downloading, installing, and testing the SVG graphics viewer.
